Nathalie Vos

Bunny & Clyde

Bunny & Clyde is a luxury nursery and children's furniture and lifestyle brand, based in Kerry. The brand was founded by sisters Nathalie and Lisa Vos, and friend Mariette Bergh in 2015. Nathalie worked as a Senior Interior Designer and Creative Lead for more than a decade for high profile award winning architectural and interior design practices in London before relocating to Ireland.

Bunny& Clyde was founded on the principles of design-led sustainability and with the emphasis on creating timeless products for children that grow with the child, adapting to their changing needs. The furniture is also designed to transcend the boundaries of the nursery to blend in seamlessly into other areas of the home, so that it is always in use. Bunny & Clyde produce modern heirlooms that champion good design in a socially and environmentally responsible manner.

In 2016, Bunny & Clyde launched a limited-edition range with Mamas & Papas, the UK manufacturer and retailer of baby and related products. In 2017, the brand was selected as one of seven Irish Design Brands to exhibit within the prestigious Juried section of Accent on Design at NY NOW in New York, and in the same year, they were awarded Furniture Designers of the Year in the Image Interiors and Living Awards.

The company's products are currently sold in the UK, USA, France, Spain, Germany, Saudi Arabia, Dubai, and Australia, and plans are underway to produce a range of adult's furniture as well as complimentary lifestyle and homeware accessories for the whole family.
