

Karen Kirby

Kirbee Designs

Kirbee is a luxury children's wear brand designed by Karen Kirby, specialising in occasion wear. The brand was created following the identification of a gap in the market that exists between high end designer children's wear and high street. The strength of Kirbee is the dynamic skillset offered by its co-founders along with a passion for design and quality products.

Karen Kirby is a leading women's fashion designer, renowned for her love of classic lines and use of coloured textures. Karen has always taken inspiration from nature and, in particular, her love of the sea, having grown up in by the coast in North County Dublin. This has inspired many of her very feminine and whimsical designs. Upon graduating from the Grafton Academy of Dress Design, she joined a large Irish Fashion House and it was during her time as head designer that she developed a love of travel and began to draw inspiration from different cultures and colours that surrounded her.

Through her travels she first started to buy garments for her children due to the high standards in design and quality. It was with these thoughts in mind she came up with the plan of creating a luxury baby and toddler range that offers beautiful timeless fashion but still has a chic and contemporary style.

Kirbee Designs are available in House of Fraser Dundrum, Kilkenny Shop Nassau St, Brown Thomas, and Mumzworld Dubai- the largest online retailer in Dubai. They have appeared in the Irish Times, The Business Post and Tatler, and were featured on TV3's Ireland AM.
