

Beauchamps

Beauchamps is one of Ireland's most progressive and innovative corporate law firms, with a proud history dating back to 1803. Based in Dublin and employing over 200 professionals, we provide commercially focused legal services to Irish and international clients across all sectors of the economy.

With a strong reputation for accessibility, collaboration, and pragmatic advice, Beauchamps is trusted by clients for its deep commercial understanding and long-term relationship approach. The firm invests time to fully understand the business drivers behind each client's needs, enabling tailored, strategic solutions that evolve with their growth.

Beauchamps is a recognised legal leader in Ireland's startup and innovation ecosystem. We advise entrepreneurs and companies at all stages of development, from formation to strategic scaling, on a range of matters including IP protection, shareholder agreements, commercial contracts, employment law, debt and equity funding, data privacy, ESG and AI. By engaging early with startups, we help lay strong legal foundations that support long-term success. As companies scale, we remain close advisors, guiding them through complex transactions, investment rounds, and global expansion.

We are proud advocates for diversity and inclusion across the legal and business communities. As long-time supporter of Starting Strong, Beauchamps brings more than legal expertise — we offer a genuine commitment to supporting innovation, growth, and positive impact. Our focus is on empowering the next generation of businesses, and to be the law firm for Ireland's future.

Beauchamps is ranked among Ireland's top law firms by Chambers Europe and The Legal 500, with recent client feedback highlighting our sector expertise and collaborative style:

"The team adopts a pragmatic approach to dealing with issues that arise during a transaction." – Chambers & Partners 2026.

"Their commitment, work rate, pragmatism, bias to action. Trusted advisors." – Legal 500 2026.
